Jingwen Yan

Ph.D. Candidate in Computer Science, Clemson University, South Carolina
864-722-3613 | jingwey@clemson.edu | yanjingwen111.github.io | Google Scholar

Research Interests

Cybersecurity and Privacy; IoT Security and Privacy; Privacy and Policy Compliance on Open Platforms; Human-Centered and Usable Privacy; Trustworthy AI and AI Agents.

Education

Clemson University — Clemson, South Carolina, USA
Ph.D. in Computer Science — Aug. 2023 – May. 2027 (expected)
GPA: 4.0/4.0, Advisor: ***Dr. Long Cheng***

University of Pittsburgh — Pittsburgh, Pennsylvania, USA
Master of Information Science — Aug. 2019 – May 2021
GPA: 3.95/4.0

Nanjing University of Posts and Telecommunications — Nanjing, Jiangsu, China
Bachelor of Computer Science and Technology — Aug. 2015 – May 2019
GPA: 3.75/5.0

Industry Experience

Data Engineer - Shein — Singapore
Order/Promotion Data Warehouse — Jun. 2022 – Jul. 2023
- Built ETL processes for two data marts using AWS, Hive, and SQL to process billions of records.
- Designed data APIs and automated report delivery through email and WeCom using Python.
- Reduced runtime by 20% by tuning Hive parameters, optimizing multi-layer partitioning, and streamlining the data pipeline.

Data Engineer - Shopee — Singapore
Search/Competitor Intelligence/Shop Flow Data Warehouse — Jun. 2021 – Jun. 2022
- Contributed to the conceptual, logical, and physical design of data marts.
- Supported three product lines by building ETL pipelines with Airflow, Scala, Python, and Spark.
- Reduced HDFS storage usage by 15% and Spark resource consumption by 20% using compression techniques and data-layout optimizations.

Publications

*Equal contribution.

Peer-Reviewed Conference Publications

Awards and Honors

Outstanding Ph.D. Student in Computer Science, Clemson University	2026
USENIX Student Grant	2025
Clemson University Graduate Travel Grant	2025
CPSIOTWEEK Travel Grant	2024
IEEE SecDev Student Travel Grant	2023
ACM CCS Student Travel Grant	2024 & 2023

Grant Proposal Contributions

Contributed to five NSF proposals on which my Ph.D. advisor served as PI or Co-PI. Contributions included proposal writing and revision, the design and implementation of hands-on labs and project modules, and the creation of supporting figures.

- **Collaborative Research: CyberAI Innovation: Securing and Leveraging Agentic AI for Cyber Defense** (*Status: Funded* | *Total award: $500,000* | *Duration: 2026 – 2029*)
- **Collaborative Research: SaTC: EDU: Developing Curriculum, Hands-on Labs, and Research Platform to Engage Students in Privacy Compliance Education** (*Status: Funded* | *Total award: $500,000* | *Duration: 2025 – 2028*)
- **Collaborative Research: SaTC 2.0: RES: Dynamic Privacy Notice for Consumer Mobile and IoT Systems** (*Status: Pending*)
- **Collaborative Research: CyberTraining: Pilot: Leveraging AI Agent Technologies to Advance Computational Social Science Research** (*Status: Pending*)

- **Collaborative Research: SHF: Combating Silent Breaking Changes in Agent Systems Under Evolving Dependencies** (*Status: Pending*)

Teaching Experience

Selected Course Lectures, Clemson University — Fall 2026
CPSC 6820: AI Security & Trustworthy AI
Delivered lectures on AI-enabled phishing attacks, detection, and defense.
Mentored students on course projects and developed AI security labs.

Graduate Teaching Assistant, Clemson University — Spring 2025
CPSC 8570: Network Technologies Security
Delivered lectures on privacy rights and user control over personal data.
Graded assignments, held office hours, and advised course projects.

Graduate Teaching Assistant, Clemson University — Fall 2024
CPSC 4200/6200: Computer Security Principles
Graded assignments and held office hours.

Mentoring Experience

Mentored 10+ undergraduate students through Clemson University's Creative Inquiry and Undergraduate Research programs from 2024 to 2026.

- **Jalil Harris and Kellen Grossenbacher**: User perceptions of privacy labels (published at WPES 2025) and privacy-label certification for Alexa skills (SkillCert; manuscript in preparation).
- **Will Thaiss and Vincent Hung**: Differences between AI personas and human participants.
- **Rohit Vummadi, Sai Ganesh, Jin Chan Schmitt, and Mia Kramer**: Detection of discrepancies in mobile-app privacy policies.
- **Keely Hong and Harshal Patel**: Privacy-label literature review and mobile apps' privacy.
- **Hayden Lorenz**: Reproducibility of provenance-graph-based intrusion detection systems.

Posters

Invited and Conference Talks

- "The Right to Be Forgotten: Data and Account Deletion in Practice." GenCyber Post-Camp Event, North Carolina A&T State University, 2026.
- "No Way to Sign Out? Unpacking Non-Compliance with Google Play's App Account Deletion Requirements." USENIX Security, Seattle, 2025.
- "SkillPoV: Towards Accessible and Effective Privacy Notice for Amazon Alexa Skills." NDSS, San Diego, 2025.

Professional Service

- Volunteer: *USENIX Security Symposium (USENIX Security)*, 2025.
- Reviewer: *IEEE International Conference on Trust, Privacy and Security in Intelligent Systems, and Applications (TPS)*, 2026.
- Reviewer: *IEEE Transactions on Information Forensics and Security (TIFS)*, 2026.
- Reviewer: *IEEE Transactions on Dependable and Secure Computing (TDSC)*, 2025.
- Reviewer: *IEEE International Conference on Distributed Computing Systems (ICDCS)*, 2025.
- Reviewer: *IEEE/ACM International Conference on Advances in Social Networks Analysis and Mining (ASONAM)*, 2025.
- External reviewer: *Network and Distributed System Security Symposium (NDSS)*, 2026.
- External reviewer: *IEEE Secure Development Conference (SecDev)*, 2026 & 2025.
- External reviewer: *Workshop on Security and Privacy in Standardized IoT (SDIoTSec)*, 2026 & 2024.
- External reviewer: *ACM Conference on Computer and Communications Security (CCS)*, 2025 & 2024.
- External reviewer: *Annual Computer Security Applications Conference (ACSAC)*, 2025 & 2024.
- External reviewer: *ACM Workshop on Enhancing Security, Privacy, and Trust in Extended Reality Systems (XRSecurity)*, 2025.
